

## UK Data Loader

The UK Data Loader is an ArcGIS Pro Toolbox which contains a set of tools which allow loading of Ordnance Survey data into an ArcGIS workspace

The tool can be downloaded from ArcGIS online [here](#).

The password required to unzip the UK Data Loader is **ZdR&6Bdc**

The package includes a user guide which will help you get started with the loading tools, but if you have any questions please [contact technical support](#).

The UK Data Loader is licensed by Esri UK subject to the Esri UK Software License Agreement.

The Esri UK Software License Agreement is available at <http://www.esriuk.com/legal> and your use of the software will indicate your acceptance of these terms.
